

BATMAN MARKET SETUP INSTRUCTIONS

Arrival Time

- Setup with vehicle occurs between 2:00pm to 3:00pm.

Setup Procedure

- Please enter from the main gate on Gaffney Street, and you'll be directed to your stall space.
- Once you finish unloading from your vehicle, please drive through the market area to the car park and park at the designated area.
- If you do not require a vehicle to set up, you can park your vehicle by entering from the gate closest to the train tracks and enter the market area through the back gate.

Car park use

- Each stallholder is allowed a single car park space, as we want to reserve as much parking space as possible for customers.
- Please respect this quota. We have calculated that each car spot can host 4 customers per market day. We want to maximise customer convenience. This is in everyone's best interest.
- Please enter the car park closest to the train tracks. There are flags and signs prominently displayed outside this entrance, so it is easy to spot. This is the same car park customers will use.

Market map

- Please familiarise yourself with the map below for setup route and parking.

Emergency contacts: they will be present at every market day from 2:00pm

- Mr Chen: 0422 139 393
- Alex: 0424 9013 726
